

# Guatemala Cattle Project

Part of the Revolving Funds Program of  
The Association of Mam  
Christian Women for Development

## Here's how it works:

- A woman applies for a \$300 grant to purchase a cow or bull
- She receives training from an agricultural/livestock expert
- Cows are raised to produce milk and calves
- Bulls are fattened for a year then sold for a handsome profit
- Cattle manure and urine can be used or sold for fertilizer
- A woman may receive a subsidy to improve her cattle shelter
- The recipient family pays for vitamins, de-worming medicine
- The \$300 is paid back in full and given to the next woman
- Extra profits put food on the table and send kids to school

**Your gift is 100% sustainable  
and will continue to work year after year!**

**Full Cost of Cow or Bull: \$300**  
*(Partial shares available!)*
